Customer Problem Statement Template:

I am a student, professional, or property owner looking for a streamlined, trustworthy way to engage in the residential rental market.

I'm trying to either find and book a suitable rental home without jumping through bureaucratic hoops, or list and manage my property inventory without dealing with unverified leads.

But current platforms are often cluttered with expired listings, lack direct communication between parties, and have high barriers of entry for independent owners.

Because they often prioritize high-volume corporate listings over user experience, leading to poor navigation, lack of transparency in booking status, and manual, offline verification processes.

Which makes me feel anxious, inconvenienced, and skeptical—reducing my trust in digital rental solutions and making the moving process more stressful.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Renter (student or professional) looking for a new place to live.	Browse properties and send inquiries to owners with my details to secure a booking.	Most rental platforms have cluttered interfaces or show listings that are no longer available.	Property discovery and status tracking (like pending/confirmed) aren't transparent or real-time.	Frustrated and overwhelmed , making it difficult to find a reliable home quickly.
PS-2	An Owner or property manager trying to list residential spaces.	Easily add, edit, or delete listings and manage the availability of my properties.	I don't have access to a simple, seller-friendly platform that lets me approve tenants directly.	Existing systems are designed for massive corporations or lack owner-specific CRUD tools .	Limited and excluded , unable to manage my rental business efficiently in a digital marketplace.
